to have gone out to the other side of the world with an army of invasion and had a part however small in the subjugation of a strange people and then to see a new government set up and as an official of that government watch it work out through a number of years is an unusual and interesting experience especially to a lawyer what seem to me the most valuable things i learned in the course of that experience are herein submitted to my fellow countrymen in connection with a narrative covering the whole of the american occupation of the philippines to date this book is an attempt by one whose intimate acquaintance

with two remotely separated peoples will be denied in no quarter to interpret each to the other how intelligent that acquaintance is is of course altogether another matter which the reader will determine for himself the task here undertaken is to make audible to a great free nation the voice of a weaker subject people who passionately and rightly long to be also free but whose longings have been systematically denied for the last fourteen years sometimes ignorantly sometimes viciously and always cruelly on the wholly erroneous vi idea that where the end is benevolent it justifies the means regardless of the means necessary to the end at a time when all our military and fiscal experts agree that having the philippines on our hands is a grave strategic and economic mistake fraught with peril to the nation s prestige in the early stages of our next great war we are keeping the filipinos in industrial bondage through unrighteous congressional legislation for which special interests in america are responsible in bald repudiation of the open door policy and against their helpless but universal protest a wholly unprotected and easy prey to the first first class power with which we become involved in war

uncovering the vital role of interpreters dubbers and subtitlers in global film nornes examines the relationships between moving image media and translation and contends that film was a globalized medium from its beginning and that its transnational traffic has been greatly influenced by interpreters
